

## Pro

### *Ettore Gandini*

I was born in Varese in 1969 where I still live with my family.

Sport has always been my biggest passion, in fact I started dreaming about being a soccer player when I was a child until it became my job.

I played for 15 years in all the Italian championships, from Serie C to Serie A, as a goalkeeper.

In the meanwhile, thanks to a friend who passed on his passion to me, I became very interested in golf. I immediately started playing with determination, until I was able to go on to compete as amateur in regional and national championships and also in an european championship.

I managed to become professional in 2005 and right after I started teaching.

I studied for 4 years at F.I.G (Federazione italiana Golf) and I attended some courses and seminars of the Professional Golfers' Association of Italy (P.G.A.I.).

After some experiences in few clubs both Italians and Swiss, I have settled at Golf Club Lugano where I have been teaching since 2008

#### **Interests**

I am passionate about motoring and weightlifting.
